Summit Calendar

Install Guide

How to install Summit Calendar on your device
Android / iPhone / iPad / PC

Android / PC (Chrome)

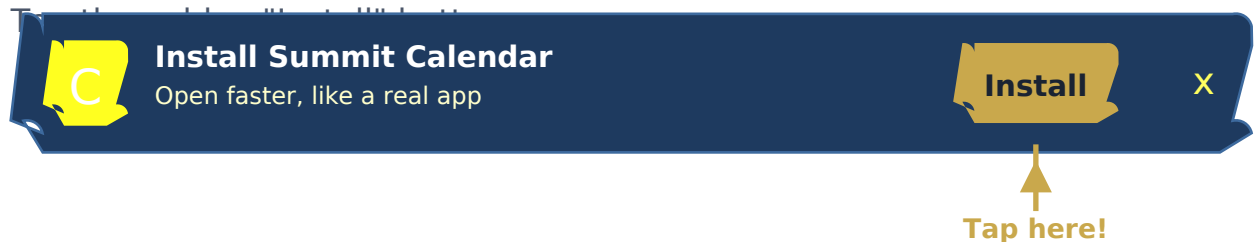

Follow these steps to install Summit Calendar on your Android phone or PC (Chrome)

1 Open Chrome Browser

Go to your Summit Calendar URL
<https://summit-calendar.xxx.workers.dev>

2 Tap "Install" Banner

A banner will appear at the bottom of the screen

3 Confirm "Install"

A popup dialog will appear. Tap "Install" to confirm.

4 Done! Open from Home Screen

Summit Calendar icon will appear on your home screen.
Tap to open — no browser needed!

TIP (PC / Desktop)

On PC Chrome, look for the install icon (arrow-down) in the address bar,

iPhone / iPad (Safari)

Follow these steps to install Summit Calendar on your iPhone or iPad:

*** Important: Must use Safari browser (not Chrome or LINE browser)**

1 Open Safari

Open Safari and go to your Summit Calendar URL

2 Tap the "Share" button

Tap the Share icon (square with arrow up) at the bottom of Safari

<-- Share button (bottom of Safari)

3 "Add to Home Screen"

Scroll down in the share menu and tap "Add to Home Screen"

+ Add to Home Screen

4 Tap "Add"

Tap "Add" in the top-right corner. Done!

5 Open from Home Screen

Summit Calendar icon is now on your home screen!

Installation Complete!

The app opens in fullscreen mode — looks and feels like a real app.
Data syncs live from the server. No updates needed!
